This study aims to determine the effectiveness of using Quizizz as a learning media on the learning interest of students in class X TJKT at SMKN 3 Seluma in basic subjects of expertise programs. The research method uses quantitative experiments. The research design used was One Group Pretest-Posttest Design. The subjects of this study were 33 students of class X TJKT at SMKN 3 Seluma. The instrument used was 20 questionnaire questions, the instrument had been tested for validity and reliability. Data analysis techniques used are normality test, homogeneity test and hypothesis testing. The results of the pretest and posttest questionnaires of 50.9% and 87.95%, it shows an increase of students' interest in learning. The results of the research with paired sample test showed that the value of asym sig. (2-tailed) of $0.000 < 0.05$ where t count is greater than t table $24.220 > 2.037$ so that H_0 is rejected and H_a is accepted, which means that the use of Quizizz media as learning media in basic subjects of skill programs is effective on students' learning interest. It can be concluded that the use of Quizizz as learning media (X) has a significant effect on students' interest in class X TJKT at SMKN 3 Seluma.
